

Why I write books for you

I believe God likes you.
You are the difference your world needs.
You are the answer to someone's prayer.
You are God's masterpiece.

I believe God wants to

- heal all your hurts,
- renew your mind,
- transform your life,
- send you out as a healer of the nations, and
- bring you safely home.

Many people don't believe these things. Deep down, most Christians believe some version of the following: *God doesn't like me; I'm not okay.* This limiting and untrue belief and others like it trap the people of God into a life of trying hard to get God's approval, a life of stumbling over and over with the same life-controlling issues, a life where peace and joy are religious words—not everyday reality.

I help people find their way out of that mess.

I understand how God transforms people, and I know how to explain it in a way people can understand.

The message I bring opens the door to a brand new life for many people—including people who have been Christians for many decades. The message I have brings hope, encouragement. I point the way to a new and better relationship with God, and a new understanding of the Bible and its message.
